

EMILY GRIFFITH

TECHNICAL COLLEGE

2021-2022 Water Quality Management Checklist

On the first day of class, you will need:

- Note taking supplies (pen and notebook paper)
- Pocket Scientific Calculator (Texas Instruments TI-30XIIS recommended; loaners available for in-class use)
- Laptop Computer (loaners available for in-class use)
- Student ID and Password for Student Portal

Accelerated Program

- On the first day of class for a program crucial policy, procedure, and orientation take place. It is expected that all registered students attend on the first day. If a student does not attend on the first day of a program without prior approval from the Instructional Dean or Associate Dean, they will be dropped from the program and encouraged to register at another date.
- Classes are completed at a quick pace, without breaks between classes. One class is covered in its entirety before moving to the next class. Classes range from three to five weeks in length.
- In order to access course content online, students must make payment arrangements with the Treasurer's Office prior to the first class. If a student has not made these arrangements, they will not have access to course content and may find themselves behind in class from day one.
- Due to the fast pace of the program, attendance is required for student success.

Evening Part Time Program Hybrid Learning

- On the days your class meets face-to-face (Mondays and Wednesdays), you will be expected to participate in lecture, discussion, and activities. On the days that you would not be meeting face-to-face, you will complete readings, virtual labs, and homework.
- Students must be prepared to commit a minimum of 8-10 hours/week of study-time in addition to the 8 hours of weekly class time.
- Students are expected to keep up with classwork by adhering to course assignment schedules.

TECHNICAL COLLEGE

Computer Skills

- Basic computer skills are necessary for successful completion of coursework.
- Please discuss digital literacy support needs with your Career Navigator prior to starting the program.

Additional Information

- Licensing costs (approximately \$100/exam, for a total of \$400) are not included in program tuition and fees.
- Technical tours and technician ride along experiences are part of the program. Climbing stairs and walking is required. Please discuss accessibility needs with your Career Navigator prior to class.
