

Meeting Program Requirements for Concurrent Enrollment

Purpose: This document details the methods your students can use to meet the reading and math requirements for admissions of the Career and Technical Education (CTE) programs at Emily Griffith Technical College. Admissions requirements through academic assessments must be met before a student is eligible to register for Concurrent Enrollment in a CTE program.

Methods:

Standardized Test Scores (See chart below)

College-level course (See chart below)

EdReady Learning Path: Students who cannot meet the reading and math requirements of their program through a standardized test score or prior college-level class can complete pathways with EdReady instead. Our [EdReady Learning Path page](#) will help guide you through to get started.

Each EdReady Learning Path begins with a diagnostic that determines which skills they need to learn or review to be prepared for the academic work in their CTE program. Then they complete self-guided online lessons that cover those skills. Students should be prepared to spend an hour a day for a few weeks working through these online lessons to meet the requirement. Contact EdReady.Help@emilygriffith.edu if you have questions.

Transcripts: *ASCENT Students Only*

Unweighted cumulative GPA and graduation date on transcript.

→ **2.5 GPA for all CTE programs**

Submitting documents: Must have the student's full name that matches their college application, date test was taken and test score(s); upload to the [Concurrent Enrollment Application Requirements Dropbox](#).
